

GORAN PAVLIK

Sales Strategy & Operations · Revenue Operations · Commercial Analytics · Business Intelligence

London, UK · 07542 424 501 · pavlikgoran@yahoo.com · linkedin.com/in/goran-pavlik

SELECTED HIGHLIGHTS

- First dedicated Revenue Operations hire at CubeLogic (SaaS) — establishing the commercial reporting, forecasting cadence and data governance foundations to support scalable growth.
- \$200M revenue portfolio at Intelsat — owned pipeline analytics, executive-level forecasting and CRM integrity partnering daily with 9 Sales Directors, Finance and the CRO function.
- Surfaced that 60% of sales effort was generating only 16% of revenue — built the data case that reshaped GTM targeting, ICP prioritisation and commercial productivity.
- 8+ years across B2B SaaS, satellite technology, fintech and telecom — turning CRM, pipeline and unit economics data into executive-level commercial actions.

PROFESSIONAL PROFILE

Sales Strategy and Revenue Operations professional with 8+ years of experience delivering commercial insights, forecasting, executive reporting and operational improvements across SaaS, satellite technology, fintech and telecom. Salesforce-fluent and HubSpot certified, advanced in Power BI and Excel, with working SQL capability. Track record of delivering executive-level reporting, coordinating cross-functional commercial initiatives and partnering with Sales leadership across EMEA and global markets. Comfortable in unstructured, ambiguous environments — bias toward simplification, AI-enabled automation and continuous improvement.

PROFESSIONAL EXPERIENCE

Revenue Operations Manager · CubeLogic | SaaS — Enterprise Risk & Compliance Software

Jul 2026 – Present

First dedicated RevOps hire — establishing commercial reporting, forecasting and data governance across Sales, Account Management, Finance and Operations

- Appointed as the first dedicated Revenue Operations Manager to establish scalable commercial reporting, forecasting, data governance and sales operating processes across the business.
- Partner with executive leadership and cross-functional stakeholders across Sales, Account Management, Finance and Operations to improve commercial visibility, pipeline reporting and forecasting cadence.
- Design and enhance executive-level pipeline, forecasting and revenue reporting — translating commercial data into actionable insights for recurring sales reviews and leadership decision-making.
- Drive the development of Salesforce 'Fusion' as a trusted commercial source of truth, improving data quality, reporting governance, opportunity visibility and commercial process consistency.
- Support cross-functional improvements to TAM coverage, account prioritisation and customer visibility — identifying opportunities to simplify reporting through BI, automation and AI-enabled tools.

Business Intelligence & RevOps Manager · FlexiOffices | Flexible Office Space

Jan 2026 – Mar 2026

Fixed-term contract · GTM analytics, ICP prioritisation, AI-enabled outbound

- Surfaced that 60% of sales effort generated only 16% of revenue; built data case that reshaped account targeting, ICP scoring and GTM prioritisation.
- Designed AI-assisted outbound workflows using Clay — increasing lead prospecting from 8 accounts per month to 30 per day; identified sales incentive misalignment and proposed corrective structure.

Senior Business Management Analyst · Intelsat | Satellite Technology | B2B Global

Aug 2023 – Oct 2025

Pipeline, forecasting and revenue operations across a \$200M B2B technology portfolio

- Owned pipeline analytics, forecast cycles and executive-level performance reporting across a \$200M portfolio — partnering daily with 9 Sales Directors, Finance and the CRO function across EMEA and global regions.
- Built Power BI dashboards integrating Salesforce, finance actuals and backlog data into a live single source of truth used daily by commercial leadership for pipeline decisions and board reporting.
- Designed forecasting and scenario models for quarterly business reviews, capacity planning and territory design; reduced manual reporting by ~60% through automation in Power BI, SQL and Excel.

- Drove Salesforce data quality, pipeline hygiene and stage discipline across multiple regional teams — lifting CRM trust, forecast accuracy and cross-functional data alignment.

Senior Business Intelligence Analyst · AZA Finance | Fintech —
Payment Infrastructure

Jun 2022 – Dec 2022

Recurring revenue, retention and funnel analytics in a fast-scaling fintech environment

- Partnered with Revenue leadership on customer segmentation, funnel performance and pipeline analysis in a usage-based recurring revenue model.
- Built dashboards tracking retention, pricing, conversion and revenue drivers; delivered LTV, CAC and churn analysis to sharpen commercial focus on highest-potential segments.
- Supported sales commission calculation and performance analysis tied to compensation outcomes.

Business Intelligence Analyst · Orange UK | Telecommunications |
International Carriers

Mar 2020 – Jun 2022

Commercial reporting and pricing insight across a multi-entity, multi-brand technology business

- Built KPI dashboards covering revenue, margin and operational performance across international business units; automated Power BI reporting across multiple entities, improving consistency and speed.
- Delivered commercial insight on pricing, traffic flows and cost efficiency to support strategic and finance-led decision-making.

Earlier Roles · Orange UK | London | Nov 2017 – Mar 2020

Accountant (Feb 2019 – Mar 2020) · Expense Administrator (Nov 2017 – Feb 2019) — month-end close, cost control, balance sheet reconciliations and corporate card compliance, building the finance discipline now applied to revenue operations and forecast accuracy.
